We are proud to announce that Chad Stevens, a City Council member, was recently awarded the Road Scholar Recognition. To accomplish this he had to take classes, do field work and pass exams relating to roads. He is currently working on his Road Master Certification. Congratulations Chad!

FYI

Although flushable wipes are being used and deposited in our sewer system, we want to make you aware that they are not biodegradable. Therefore, it would be appreciated if you would not flush them into the city sewer system. It is clogging the valves because the wipes will not break down. We just recently had to spend over \$3,000 of your city money to locate a problem that was caused by an item being flushed into and backing up the system. Please do not flush anything other than "TP". Thank you for your attention to this matter.

Spring Clean-up

Spring Clean-Up will take place this year from now until June 2. Dumpsters have been provided on the city lot on main street. We would appreciate it if everyone would do their own cleaning and then deposit it in the dumpsters. This does not include household garbage. If you have an item that is too heavy for you to transport to the dumpsters, please let a City Council member know and we will make arrangements to assist you.

A picnic and door prizes will be furnished by the city on June 2 at 1 pm.

We may sound like a "broken record", however speeding on our streets has got to

Please observe speed limit signs!!

To schedule the city park pavilion, please call Raymonda Furness at 208-458-4625.
